We are pleased to announce that we have negotiated with the Novotel Hotel to reschedule the ANZSASI 2020 conference to the 20-22 November 2020 under the same terms and conditions as originally agreed. We considered other options including cancellation but we had a very good response to the original plan so we believed it would be beneficial to reschedule. We chose the last date available for this year, prior to the normal pre-Christmas period. We are optimistic that Australia and New Zealand will be open for business again in time for us to make final plans for the conference. The hotel contract allows us to make a go-no go decision at the beginning of October.

However, we will keep you informed with progress in the planning and hope we will be able to make definite plans before this date.

The people who have offered to make presentations will be contacted to discuss the possibility of presenting in November.

The information on the website including the registration form has been updated. If you have already registered, your registration will automatically be transferred to the new dates unless you wish to cancel. A refund of your registration payment can be made by contacting the secretary ASASI.

The hotel booking information will be updated to the new dates. To make reservations or move existing reservations please contact:

The 2020 ANZSASI Australasian Seminar will be held in Surfers Paradise at the Novotel Hotel, 3105 Surfers Paradise Blvd, from Friday to Sunday November 20-22 (2020). The Novotel is ideally suited being centrally located, and adjacent to public transport. The Seminar will follow our usual format with the Cabin Safety Working Group meeting on Friday, as well as the annual Australia-New Zealand Golf Championship. A welcome reception will be held on the Friday evening, followed by two full days of presentations on Saturday and Sunday and a dinner on the Saturday night. For partners, the Novotel is in the central shopping area, with easy access to all the Gold Coast attractions.

We are planning a paperless conference using an Event Mobile APP currently under development. Details will be released soon, and the APP will provide all the information regarding the seminar.

The success of our annual ANZSASI Seminar is always measured by the quality of the papers and associated presentations provided. The theme of the seminar is “Improving Safety” and a range of quality papers will address all aspects of transport safety, safety training and education, human factors and technical developments.
