

Reachout Seminar #44

Madrid, Spain

April 15-18, 2013

The 44th Reachout Seminar was held April 15-18, 2013, at the NH Zurbano Hotel in Madrid, Spain. The seminar was sponsored by COPAC (Spanish Pilots Association) and attended by 42 students. Frank Del Gandio and Michael Doiron were the instructors. There were students from nine different countries and nine students signed up to be ISASI members. In addition, corporate applications were given to two companies for potential joining. Everything went extremely well and the students were very enthusiastic.

Initially, in February, there was a problem because ESASI scheduled their yearly seminar for the same week in Madrid. ESASI never notified ISASI of this meeting and it was not posted on the ISASI website. I visited with Keith Conradi while in Spain and had previously agreed to speak at their seminar. There was no conflict between the two seminars and both seminars were well attended and successful.
